

# CLOUDANT DB

## To Create Service Instance:

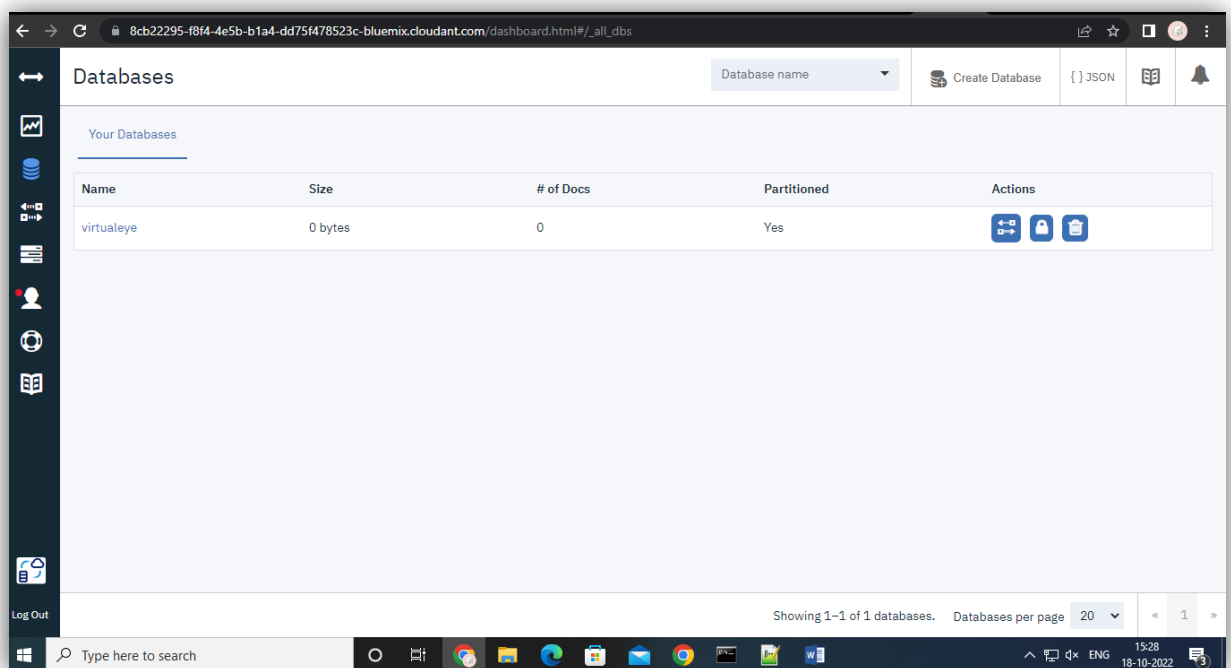

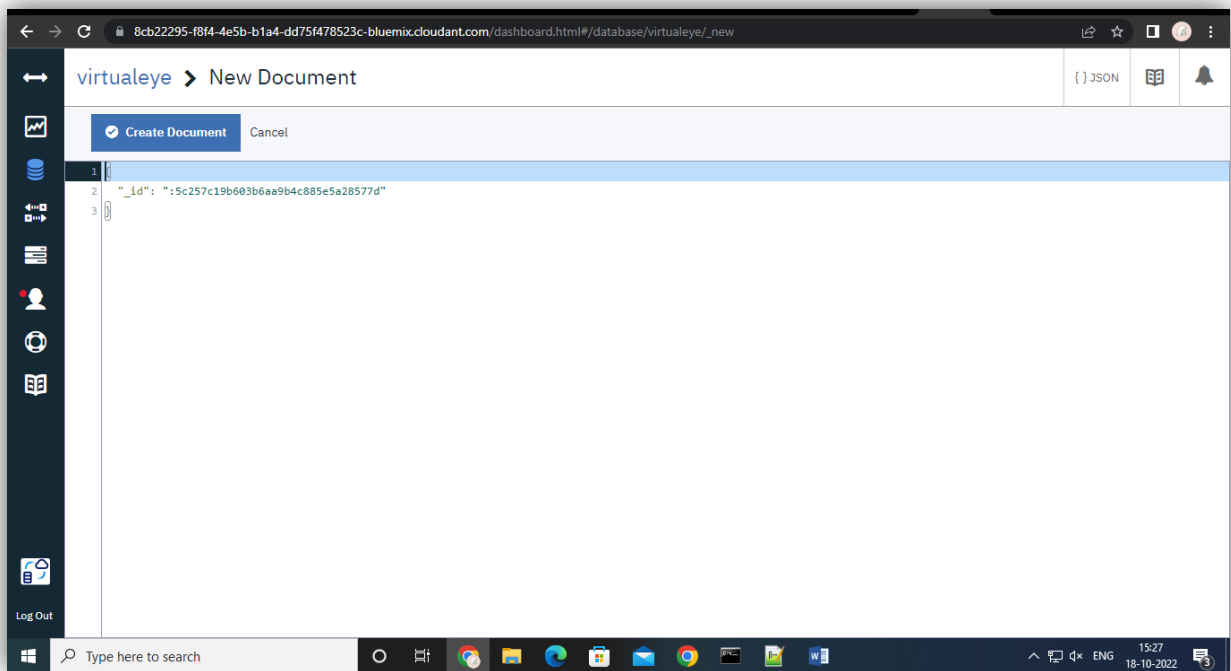

*Step 1: Open the IBM cloud website. In the Resource list page, under Services click Cloudant-g4. You will be redirected to a new page, click Launch Dashboard.*

**Step 2:** You will be redirected to databases page. Provide a database name and select partitioned and then select Create. Then click Create Document.

**Step 3:** A new page will appear with id. Enter your database and create.

**Thus, the service instance is created.**
